

PRESS RELEASE
1 August 2022

Megawide wins concrete excellence award for Plumeria Mactan Project in Cebu

consistently champions the use of innovative engineering technologies in its projects.

The Company recently bagged the Mid-Excellence in Concrete Construction Awards (PECCA) for its construction of the Plumeria Mactan project, a development by Cebuano company Johndorf Ventures.

PECCA is organized by the Philippine Constructors Association (PCA) and the American Concrete Institute Philippines (ACIP). The award recognizes projects with outstanding use of innovation and technology, and for inspiring excellence throughout the global concrete design and construction community.
